

INDEX.

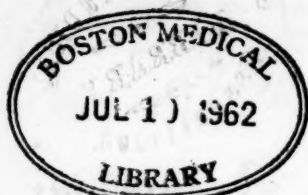

A.

Abdomen, a stab in, 281; penetrating wound of, 525.
Abortion; alleged criminal, 351; danger of, 458; 533.
Abscess; pelvic, 53; alveolar, 94; psoas recovery, 529.
Absence; of lung, 119; of fingers, congenital, 449.
Abstention, from use of knife, 207.
Abuses and uses of the speculum, 181.
Accident, 461.
Account books, physicians', 526.
Acid; carbolic; vaporization of, 81; arsenious, subcutaneous injections of in skin diseases, 174; and cresylic, 231; poisonous effects of, 232; poisoning by, 264; in variola, 266; carbonic in air of school rooms; 290.
Aconite; poisoning by, 358.
Acute rheumatism, 92.
Action, physiological; of protoxide of nitrogen, 6; of meat broth, of meat extract, and potassa salts of meat, 46; of cold water internally, as a febrifuge, 231.
Adherent placenta and deformed fetus, 71.
Adhesion; of lid, 530.
Adulteration; of food and drugs, 158; of milk, 395; of quinine by salicine, detected, 462.
Aid society; physicians' mutual, 494.
Air; of school rooms, quantity of carbonic acid in, 290; of workshops, 308; compressed and rarified in therapeutics, 346.
Alabama, medical college of, 438.
Albumen; new test for in urine, 395.
Alcohol, in diseases of children, 368. Use of, 496.
Alkaloids of cinchonia, value of, 175.
Alveolar abscess, 94.
American; journal of obstetrics, 62; pharmaceutical association, 160.
Ambulance, the American, 215, 464.
Amenorrhea, 425.
Amnion, dropsy of the, 71, 141; 237; 455; remarks on, 462.
Amputation, 32; and erysipelas, 125; of arm, 244; synchronous, double, 352; of thigh at lower third, 356; of leg, 385; 425; 448; of both legs, 447; 481.
Amputations, 206; dressings in, 450.
Anæsthetic, a new, 72; 130; early use of, 158.
Analysis, medico forensic detection of strychnia in, 439.

Anatomy of the naso-pharyngeal cavity, 2; Philadelphia school of, 218.
Aneurism; pressure treatment, of 208; femoral, cured by rapid pressure, 369; of aorta, 389; of abdominal aorta, 457; cancerous tumor taken for, 454.
Angionoma, 303.
Animal; vaccination, 77, and vegetable life, the lower forms of, 177.
Antero-posterior curvature of the spine, 150.
Antidote; a new, 481; to irritation of cowhage, 524.
Antiphlogistic and cholagogue, mercury as an, 313.
Antiseptic, a new, 394.
Antiseptics, use of, 207.
Anus, fistula in, 36, 325, 344.
Aorta; rupture of, 389; aneurism of, 389; aneurism of abdominal, 457.
Aphorisms of uterine therapeutics, 375.
Apothecaries and physicians, 347.
Apparatus for rhinoscopic examination, 4.
Aphtha, 103.
Architecture, hints for sanitary, 392.
Arm, amputation of, 244.
Army, surgeons for the Prussian, 160.
Arrangements, Prussian field, 215.
Arsenical poisoning, a new cause of, 81.
Arsenic; a new test for, 21; eaters in Styria, 124; in irritative dyspepsia, 195; 267.
Arsenious acid, subcutaneous injection of, in skin diseases, 174.
Atresia, vaginae, 326.
Articular extremity of the lower jaw, removal of, with restoration of motion, 122.
Artificial; fecundation, 79; light, the cause of fatigue to the eye from, 333.
Ascites, a case of, 277.
Audacity of modern surgery, 205.
Aural, catarrh, infantile, 345.
Australian leeches, 138.
Auto-laryngoscopy, 228.
Auxiliary, a new, 177.
Asylum, a good private, 501.

B.

Band, frontal, 27.
Baths; therapeutical sand, 177; sponge in scarlet fever, 382; 385.
Bee stings, 513.
Beer, lager, 439.
Belladonna in constipation, 232.

INDEX.

A.

- Abdomen, a stab in, 281; penetrating wound of, 525.
Abortion; alleged criminal, 351; danger of, 458; 533.
Abscess; pelvic, 53; alveolar, 94; psoas recovery, 529.
Absence; of lung, 119; of fingers, congenital, 449.
Abstention, from use of knife, 207.
Abuses and uses of the speculum, 181.
Accident, 461.
Account books, physicians', 526.
Acid; carbolic; vaporization of, 81; arsenious, subcutaneous injections of in skin diseases, 174; and cresylic, 231; poisonous effects of, 232; poisoning by, 264; in variola, 266; carbonic in air of school rooms; 290.
Aconite; poisoning by, 358.
Acute rheumatism, 92.
Action, physiological; of protoxide of nitrogen, 6; of meat broth, of meat extract, and potassa salts of meat, 46; of cold water internally, as a febrifuge, 231.
Adherent placenta and deformed fetus, 71.
Adhesion; of lid, 530.
Adulteration; of food and drugs, 158; of milk, 395; of quinine by salicine, detected, 462.
Aid society; physicians' mutual, 494.
Air; of school rooms, quantity of carbonic acid in, 290; of workshops, 308; compressed and rarified in therapeutics, 346.
Alabama, medical college of, 438.
Albumen; new test for in urine, 395.
Alcohol, in diseases of children, 368. Use of, 496.
Alkaloids of cinchonia, value of, 175.
Alveolar abscess, 94.
American; journal of obstetrics, 62; pharmaceutical association, 160.
Ambulance, the American, 215, 464.
Amenorrhea, 425.
Amnion, dropsy of the, 71, 141; 237; 455; remarks on, 462.
Amputation, 32; and erysipelas, 125; of arm, 244; synchronous, double, 352; of thigh at lower third, 356; of leg, 385; 425; 448; of both legs, 447; 481.
Amputations, 206; dressings in, 450.
Anesthetic, a new, 72; 130; early use of, 158.
Analysis, medico forensic detection of strychnia in, 439.
Anatomy of the naso-pharyngeal cavity, 2; Philadelphia school of, 218.
Aneurism; pressure treatment, of 208; femoral, cured by rapid pressure, 369; of aorta, 389; of abdominal aorta, 457; cancerous tumor taken for, 454.
Angionoma, 303.
Animal; vaccination, 77, and vegetable life, the lower forms of, 177.
Antero-posterior curvature of the spine, 150.
Antidote; a new, 481; to irritation of cowhage, 524.
Antiphlogistic and cholagogue, mercury as an, 313.
Antiseptic, a new, 394.
Antiseptics, use of, 207.
Anus, fistula in, 36, 325, 344.
Aorta; rupture of, 389; aneurism of, 389; aneurism of abdominal, 457.
Aphorisms of uterine therapeutics, 375.
Apothecaries and physicians, 347.
Apparatus for rhinoscopic examination, 4.
Aphtha, 103.
Architecture, hints for sanitary, 392.
Arm, amputation of, 244.
Army, surgeons for the Prussian, 160.
Arrangements, Prussian field, 215.
Arsenical poisoning, a new cause of, 81.
Arsenic; a new test for, 21; eaters in Styria, 124; in irritative dyspepsia, 195; 267.
Arsenious acid, subcutaneous injection of, in skin diseases, 174.
Atresia, vaginae, 326.
Articular extremity of the lower jaw, removal of, with restoration of motion, 122.
Artificial; fecundation, 79; light, the cause of fatigue to the eye from, 333.
Ascites, a case of, 277.
Audacity of modern surgery, 205.
Aural, catarrh, infantile, 345.
Australian leeches, 138.
Auto-laryngoscopy, 228.
Auxiliary, a new, 177.
Asylum, a good private, 501.

B.

- Band, frontal, 27.
Baths; therapeutical sand, 177; sponge in scarlet fever, 382; 385.
Bee stings, 513.
Beer, lager, 439.
Belladonna in constipation, 232.

- Benzine in whooping cough, 62.
 Bicephalic monstrosity, 417.
 Births, premature, treatment of, 459.
 Bismuth; subnitrate of in cholera infantum, 518.
 Bladder; stone in the, 263; 426; 513; irritable, 491.
 Blindness, temporary following intermittent fever, 231.
 Blood, the flow of checked by elevation, over-extension, and over-flexion, 207.
 Body, passage of gases in, 198.
 Bone, reproduction of, 137; removal and elevation of, 299.
 Bones; resection of 205; nasal, preservation of, 205; jaw, neuralgia of the, 287; loss of superior maxillary, 343; of thorax involved in rachitis, 453.
 Bowels; protrusion of from penetrating wound of abdomen, 525.
 Brain; tumor of the, 34; injuries of, 53.
 Brains; weight of, 40; lesions of the, 53.
 Breasts, difference in the milk of the two, 351.
 Broth meat, physiological researches into the action of, 46.
 Bubo; 410; suppurating, 73; sinuses resulting from, 472.
 Burns, dry, and how to treat them, 23; probable mortality of, if great extent of surface be involved, 201:
- C.**
- Calculi, renal, 178.
 Calculus impacted in the urethra, dislodged, 98.
 Calomel in large doses in dysentery and diarrhoea, 467.
 Cancer; of penis, 32; and consumption, 103; of the larynx, 249; 283; epithelial of penis, 280.
 Cancers and tumors, 49.
 Cancerous disease of the eye, 192.
 Cantharides; inefficacy of young, 535.
 Carcinoma uteri, 327.
 Cardiac complication in phthisis, 339.
 Caries, 325.
 Cartilage; subluxation of the semilunar, 76; lower tarsal, ulcer involving the, 473.
 Castration, 45.
 Cataract, hard, 73; extraction of, 211.
 Catarrh, aural, infantile, 345.
 Causation of typhoid fever, 524.
 Cellulitis, pelvic, 452.
 Centenarian, a, 64.
 Chancre; inflammatory, 37; and phymosis, 472; concealed and phymosis, 494.
 Cheap drugs, 100.
 Children; and mother, 22; on the surgical diseases of, 335; alcohol in diseases of, 368; diseases of, 397.
 Chili, outbreak of an epidemic in, 235.
 Chloral hydrate, 82, 91; 361; 411; 475; 526; in eclampsia, 16; a little experience with, 20; 482; and chloroform, 98; clinical observations on, 105 in delirium tremens, 171; 271; purification of, 290; in midwifery, 370; in intermittent fever and labor, 477; supposed poisoning by, 481.
 Chloroform, and theology, and chloral, 98; death from, 474.
 Cholagogue and antiphlogistic uses of mercury, 313.
 Cholera, the, 311; infantile, 361; infantum, treatment of, 496; subnitrate of bismuth in, 518.
 Chlor-alum, 438.
 Chronic enteritis, 526.
 Cinchonia, alkaloids of; value of, 175.
 Circumcision, 384.
 Clearing of muddy water, 200.
 Cloth, rubber, in the treatment of skin diseases, 174
 Club-foot, 9.
 Cocklebur as a styptic, 161.
 Coffee leaves in place of tea, 334; in hernia, 353.
 Cohen's tongue depressor, 6.
 Coincidence, a striking, 270.
 Cold water; used internally, febrifuge action of, 23; treatment of typhoid fever, 134.
 Coloboma of iris and choroid, 488.
 Colors, poisonous, 351.
 Compounds, explosive, 138.
 Concentrator, Oliver's light, 26.
 Congenital; deformities, 290; absence of fingers, 447.
 Congestive fever treated hypodermically, 101.
 Conservative surgery, 83.
 Conservatism of modern surgery, 205.
 Constipation; belladonna in, 232; chronic; therapeutics of, 249.
 Consumption; and cancer, 103; pathology and treatment of tubercular, 113; iodide of potassium in, 119; snuff-taking, utility of in preventing, 308.
 Contracting for the doctor's services, 40.
 Contraction, muscular and fracture of tibia, 149 hour-glass, 540.
 Convenient night urinal, 540.
 Convulsions; puerperal, 13; 128; 469; 540.
 Corn, a shock of fully ripe, 501.
 Corrigan, Sir Dominic John, 236.
 Coroner's inquest; report of a, 122; juries, medical experts on, 483.
 Cosmetics; poisoning, 462; binocide of hydrogen as, 520.
 Cough; whooping, 101; benzine in, 62.
 Courtship and marriage, of Sir Jas. Y. Simpson, 63.
 Cowhage, antidote to irritation of, 520.
 Cows, effects of food on milk of, 21.
 Craniotomy, survival after, 502.
 Cresylic and carbolic acid, 231.
 Crooked limb, straightening of, 207.
 Cure for obesity, 21.
 Curiosity, a, 160.
 Curvature of the spine, 150.
 Cyanosis, 387.

Cyst, succulent tumor of face, 55.
Cystitis, 491.

D.

Deaths, (see last page of each No.)
Death, a sign of 414; from chloroform, 474.
Decimal weights and measures, 39.
Deformed fetus, 141; and adherent placenta, 71.
Deformity of the foot, 9; of mouth, 305.
Deformities, congenital, 290.
Delirium tremens, hydrate of chloral in, 171; 271.
Delivery, forced, 469.
Dental association of N. J., 373.
Detection of the adulteration of quinine with salacine, 46.
Depresser; tongue and palate hook, 5; Cohen's, 6.
Device, a new surgical, 458.
Diabetic flour, 416.
Diagnosis, 325; instrumental 1, 25; 65; 107; 219; 273; 293; value of percussion in, 189.
Diarrhoea, infantile treatment of, 269.
Dickens, Charles, 63.
Diffenbach's operation, 305.
Diet poor, and insanity, 395.
Diphtheria, 172.
Dirty water, purification of, 349.
Disease; of heart, extensive organic, with rupture of organ, 50; hip-joint, 147; cancerous of the eye, 192; of hip, 266; and health, pulse in, 278; encephaloid, case of, 281; epithelial of eye, 345; of women, 367; 388; of children, alcohol in, 368.
Diseases; local, 41; skin, rubber-cloth in treatment of, 174; subcutaneous injections of arsenious acid in, 174; of children, 397; of genito-urinary organs, 489.
Dispensaries, 41.
Dispensary and hospital, Germantown, 394.
Displacement and inflammation, 413.
Distichiasis and trichiasis, 493.
Domestic; homoeopathy, 291; medicine, 439.
Doses, large of calomel in dysentery and diarrhoea, 467.
Double; marriage, a singular coincidence in, 21; amputation, 447; 481; 538; iritis, 531.
Douche; nasal, 71; Pomeroy's vapor, 108.
Dressing; iodoform, 38; in amputations, 450.
Doctor, John Wesley as a, 418.
Doctor's services; contracting for, 40; how many, 438.
Drinking purposes, hard water for, 103.
Dropsy of amnion, 71; 237; 255; a case of, 169; remarks on, 462.
Drouth and protracted heat, influence of in producing sickness, 97.
Drugging liquors, 393.
Drugs and food, adulteration of, 158.
Dry burns, and how to treat them, 23.
Dysentery, 161; large doses of ipecacuanha in, 419; 503 treatment of, 526.

Dysmenorrhœa, 470; obstructive—new operation for, 532.

Dyspepsia, arsenic in irritative, 195; 267.

E.

Earth; edible, on, 286; a burning, 438.
Earthen ware, injurious, 440.
Eaters, the arsenic, of Styria, 124.
Eclampsia, chloral in, 16.
Eczema, specific, 36.
Edible earth, on, 286.

 Homicide of an insane woman, 471.
 Homeopathy, domestic, 291.
 Hook, palate, 5.
 Hooping-cough, 101.

HOSPITAL REPORTS :

Albany City Hospital :

Hæmatocele, 96; fracture of the knee-joint, 97.
 Senile gangrene; fatty tumor, 132.
 Diagnosis; retroflexion of the uterus, 325; cystic tumor; endometritis; atresia vaginae, 326.
 Menorrhœa; amenorrhœa, 425; stricture of the rectum; rectocele; inflammation of the uterus, 426.

Belleuve Hospital :

Pneumonia, 427; ovaritis, 428.

Cincinnati Hospital :

Tumors of the brain, 34.

College of Physicians and Surgeons, New York :

Carcinoma uteri; epithelioma vegetating, 327; sterility; prolapse of rectum; paralysis of facial nerve, 328; obstructive dysmenorrhœa—new operation, 532; uterine fibroid, 532; uterine tumor—suspected pregnancy, 533.

Metrorrhagia cured by operation, 387; metrorrhagia of epithelioma, cured by operation; metrorrhagia with ulceration of os, 368.

Cyanosis, 387; scoliosis; ovarian tumor; inversion, pelvic peritonitis, 388.

Procidencia of the uterus, 451; pelvic cellulitis, 452; ossification of sutures of head; macrocephalus, and microcephalous; rachitis involving bones of thorax, 453.

Jefferson Medical College :

Stone in the bladder—lithotomy, 426; ganglion, hare-lip, 427.

Philadelphia Hospital :

Specific eczema; fistula in ano, 36; neglected inflammatory chancre, 37.

Pelvic abscess, 53.

Pannus; hard cataract, suppurating bubo, 73.

Tertiary syphilis; roseola maculata; keloid, 247.

White swelling; melanosis; stone in the bladder, 263.

Supra-clavicular sinus; phymosis; impetigo, 306.

Post-mortem of melanosis; sycosis, 323; enlarged prostate gland; syphilis; enlarged penis, 324; caries; fistula in ano, 325.

Retention of urine, 364; sycosis, 365; keloid, 366; stricture; perineal section, 367.

Circumcision; result of perineal section, 384; keloid, 385.

Bubo; painful subcutaneous tubercle, 410; keloid, 411.

Keloid; result of perineal section, 423; mucous patches, 424; amputation of leg, 425.

Infantile syphilis, 450; keloid, 451.

Gangrenous ulcer of leg; chancre; concealed chancre and phimosis; sinuses resulting from bubo, 472; an ulcer involving the lower tarsal cartilage; hemorrhoids, 473.

Trichiasis and distichiasis, 493; sinuses; stricture; concealed chancre and phimosis, 494.

University of Pennsylvania :

Torticollis, or wry neck, 8; deformity of the foot, infantile paralysis—club-foot, 9; hare-lip, 11.

Hydrocephalocoele; cancer of penis—amputation, 32; epithelioma of nose, 33.

Cyst—succulent tumor of face, 55; enlarged tonsils and uvula, 56.

Urinary fistules resulting from stricture—external perineal urethrotomy, 74; subluxation of the semilunar cartilage, 76.

Alveolar abscess, 94.

Epulis, 130.

Hip-joint disease, 147; antero-posterior curvature of spine, 150.

Cancerous disease of eye; nævus of lip; sebaceous tumor, 192; epithelioma of lip; polypus of nose, 193; housemaid's knee, 194.

Ununited fracture of the olecranon, 279; hydro-

- cele, 280; epithelial cancer of penis; stab in abdomen, 281.
- Angionoma, 303; deformity of mouth, Dieffenbach's operation, 305.
- Epithelial disease of eye—extirpation; fistula in ano, 344.
- Tumefaction of lateral and submaxillary region, 362.
- Encephaloid of tarsus—amputation of leg, 385; hemorrhoids, 386.
- Neuralgia, 406.
- Amputation of leg, 448; intra-uterine subluxation of knee-joint; congenital absence of finger; supernumerary thumb, 449.
- Disease of the genito-urinary organs, 489; stricture; senile hypertrophy of the prostate gland, 490; irritable bladder; stone in the bladder—lithotomy, 491.
- Stone in the bladder—lithotomy, concluded, 513; urinary calculus—lithotomy, 515.
- University of Maryland:*
- Ophthalmic clinic; adhesion of lid, 530; phlyctenular ophthalmia; injury to eye; double iritis, 581.
- Hospitals; Liverpool, 41; for diseases of the nervous system, 83; gleanings, 260; 277; 358.
- Hospital and dispensary of Germantown, 394; surgeons, some remarks on, 440; for ruptured and crippled, 442; Long Island College, 464; woman's, in New York, 484.

- Hour glass contractions, 540.
- Housemaid's knee, 192.
- Hydrencephalocele, 32.
- Hydrangea arborescens, 502.
- Hydrocele, 280; injection of warm water into the tunica vaginalis, in, 284.
- Hydrocephalus, 335.
- Hydrogen; binoxide of as cosmetic, 520; iron and, 535.
- Hydrophobia, 133; a preventive of, 198; and tetanus, strychnia in, 352; latent, 418.
- Hygiene; rules of, 42; general instructions in, 63.
- Hypertrophy; of the liver, 342; senile of the prostate gland, 490.
- Hypodermic medication, 302.
- Hypodermically, congestive fever treated, 101.
- Hyposulphite of soda, new use of, 334.
- I.**
- Icaja, or McBoundou, a poison in use at Gabon, 333.
- Ice; treatment of scarlet fever without, 505.
- Idiopathic fevers, new treatment for, 446.
- Illumination, 25.
- Impetigo, 306.
- Impressions, maternal, 459.
- Incipient phthisis, 92.
- Incompatibility of quinine and veratrum viride, 264.
- Indelible ink, poisonous, 334.
- Indians, scalped by, 328.
- Indian remedy, a new, 392.
- Inefficacy of young cantharides, 535.
- Infant, cholera, 361; 406.
- Infantile palalysis, 9; diarrhoea, treatment of, 269; aural catarrh, 345; syphilis, 450.
- Inflammation, laryngeal, 274; and displacement, 413; of uterus, 426.
- Inflammatory chancre, 37.
- Infirmity, Marshall's, Troy, N. Y., 122.
- Influence of protracted heat and drought on sickness, 197; of fruit and vegetables on health, 197.
- Injury; gunshot of the integuments of knee, 125; of hand, wrist and fore-arm, 244; of testicle, severe, 374; 481; of the brain, 475; to eye, 531.
- Injurious earthenware, 440.
- Injections of warm water into the tunica vaginalis in hydrocele, 284.
- Ink, indelible, poisonous, 334.
- Insane woman, homicide of, 471.
- Insanity, 16; legislation on, 230; and poor diet, 395.
- Instrumental diagnosis; 1; 25; 65; 107; 210; 233; 293.
- Instruments, surgical, to remove rust from, 271.
- Institute, the medical, 290.
- Integuments of knee, gunshot injury to, 125.
- Intermittent fever followed by blindness, 231.
- Intestines, obstruction of, 535.
- Intra-uterine subluxation of knee joint, 449.
- Inversion, 388; of uterus, 249; 266.
- Iodide of potassium in consumption, 119.
- Iodoform dressings, 38.
- Ipecacuanha; in large doses in dysentery, 419; in dysentery, 504.
- Iris and choroid; double coloboma of the, 488.
- Iron and hydrogen, 535.
- Irritable bladder, 491.
- Irritative dyspepsia; arsenic in, 195.
- Iritis double, 532.
- Iva, a medicinal plant, 417.
- Ivy poisoning, 524.
- J.**
- Janeway, Dr. E. G., 538.
- Jaw, lower, extremity removal of, 122.
- Jaw-bones; neuralgia of the, 250; 287.
- Joint; knee, fracture of, 97; gunshot injury of, 125; amputation through, 206; intra-uterine subluxation of, 449; hip, disease of, 147.
- Joints, excision of, 205.
- Juries, coroners, medical experts on, 483.
- K.**
- Keloid, 247; 366; 385; 411; 423; 451.
- Kindly words, 22.
- Knee-joint; gunshot injury of the integuments of the, 125; amputation through the, 206; intra-uterine subluxation of, 449.
- Knee; housemaid's, 194;
- Knife, abstention from use of, 207.

L.

- Labor; premature, etc., 71; deferred, 170; induction of premature, 434; chloral in, 477.
 Laboratory, pathological, 524.
 Lady, a Russian, death from glanders, 155; students in Edinborough, 269.
 Lager beer, 439.
 Lamp, Lewin's, 222.
 Laryngeal, abscess, 293; inflammation, 274.
 Laryngitis, pseudo-membranous or croup, 275.
 Laryngoscopy; 163; infra-glottic, 229; pathological condition revealed, 273.
 Larynx; anatomy and physiology, 165; cancer of the, 249; 283.
 Latent hydrophobia, 418.
 Lead; poisoning, 84; thin sheet instead of lint, 348.
 Leaves of coffee, prepared in place of tea, 334.
 Leech trade, 291.
 Leeches, Australian, 138.
 Left-handedness, the cause of, 101.
 Leg, amputation of, 385; 425; 448; gangrenous ulcer of, 472.
 Legs, compound comminuted fracture of both, 447.
 Legislation on insanity, 230.
 Leucorrhoea, vaginal, 142.
 Lewin's lamp, 222.
 Lids, treatment of granular, 459.
 Life, animal and vegetable, lower forms of, 177.
 Ligature for hemorrhoids, 174.
 Light concentrator, Oliver's, 26; artificial, cause of fatigue to eye from, 333.
 Lightning, freaks of, 253.
 Limb, straightening a crooked, 207.
 Lint, thin sheet-lead instead of in wounds, 348.
 Lip; hare, 10; 174; 427; naevus of, 192; epithelioma of, 177.
 Liquors, drugging, 398.
 Lithotripsy, 171.
 Lithotomy, 209; 513; extra-uterine fetus successfully extracted by, 189; 209; 426.
 Liver, hypertrophy of, 342; scirrhus of, 510.
 Ludlow, Fitzhugh, 332.

M.

- Macrocephalous and microcephalous, 453.
 Magnetic wells in Michigan, 413.
 Malarial fevers, treatment of, 503, 504.
